

## Course Description

Java is an object-oriented programming language with a built-in application programming interface (API) that can handle graphics and user interfaces and that can be used to create applications or applets. Because of its rich set of API's, similar to Macintosh and Windows, and its platform independence, Java can also be thought of as a platform in itself. Java also has standard libraries for doing mathematics. In this course, we deal with the brief look of application development using SWING and AWT along with Servlet and JDBC programming.

## Who Can Attend?

B.Tech. M.Tech, MS, MCA, BCA, B.Sc CS, M. Sc CS

## Course Fee

VIT Students : Rs.3000  
Internal Faculty : Rs.2000  
Students (Other Institutions): Rs.4000  
External Faculty : Rs.4000

**Note:** DD should be taken in favor of "VIT University" Payable at Vellore.

## Last date for registration

**On or before 10th MAY, 2010**

## Course Duration

**17<sup>th</sup> May 2010 to 04<sup>th</sup> June 2010**

**(Including Saturdays)**

**45 Hours**

## Course Modules

**Module I** Introduction to Java  
**Module II** Java Features & Applications  
**Module III** Internet Programming  
**Module IV** Java GUI Programming  
**Module V** Advanced Java

## Course Coordinators
