Technology Entrepreneurship Development Programme (TEDP) in Food Processing

VIT Technology Business Incubator (VIT-TBI) is a joint initiative between VIT University and Department of Science & Technology, Govt. of India. VIT-TBI provides incubation support to start-up ventures.

The objective of this Entrepreneurship Development Programme in Food Processing Technology is to

- Expose the participants to the key steps in startup venturing process and equip them with adequate knowledge to initiate a venture in Food Processing and Agro-based technologies and/or services.
- Equip them with requisite skills, knowledge and competencies to convert their startup idea into a viable business entity.
- Select qualifying individuals with bankable project reports to get an opportunity to present the same for incubation support or appropriate funding support.

This 6-week non-residential training programme will cover essentials of Entrepreneurship, basics of Marketing, Finance, HR etc., and will provide ample exposure to various facets of food processing techniques, quality control, certification processes, hospitality industry, packaging and will include some industry visits. This programme will also equip the participants to write and present a Project Report and throw open opportunities to Business Incubation at the VIT Technology Business Incubator, if found suitable. Please visit www.vittbi.com for more details about VIT-TBI.

Eligibility: Graduate/diploma holders in Engineering / Science with interest / exposure to food processing technologies and planning to start a venture in food domain.

Resource: Insights pertaining to food processing technologies will be provided by experts from the industry and Govt. agencies. The sessions on Entrepreneurship and basic business inputs will be provided by resource persons from VIT Business School, VIT-TBI, entrepreneurs and industry experts.
